WEAK STOMACHS

Many Forms of Dyspepsia or Indigestion Arise from the Same

The experience of sufferers from stomach trouble, who have tried the tonic treatment with Dr. Williams' Pink Pills, has been that their trouble has disappeared as soon as the blood was made pure. The numerous dis-orders of the stomach, as catarrh of the stomach, acid stomach, nervous dyspep-sia, neuralgia of the stomach, gastritis, and lack of tone, have the same underlying cause-impure blood. In each case the stomach is weak. Dr. Williams' Pink Pills for Pale People supply the stomach with the strength it needs by enriching and purifying the blood. Pure blood gives tone to the nerves, muscles, and glands of the stomach and makes it estable of property perferming makes it capable of properly performing the work of digestion.

The cure of Mr. G. W. Seaborne, prorietor of the Seaborne Sign Co., of No. 2 Brookline street, Cambridge, Mass., is a strong recommendation of Dr. Williams' Pink Pills for Pale People for use in stomach trouble. He says:

"About four years ago I was troubled with a very bad stomach. I was short of breath, gas formed on my stomach, my legs felt as though they would give away from under me and I had dizzy, fainting spells which came on me sud-denly. My work at that time was on high scaffolding and, as I nearly fell off once, I had to give it up. My mouth was dry and parched and had a bad

taste in the morning.

"My doctor treated me for acute indigestion caused by a bad condition of
the blood but gave me no relief that I could see. Then I tried many medicines but they did me no good and I began using Dr. Williams' Pink Pills for Pale People. In a few weeks I was completely cured."

Dr. Williams' Pink Pills for Pale People have also council the properties.

ple have also cured rheumatism, indi-gestion, nervous headaches and many forms of debility and are recommended even if ordinary remedies have been tried without relief.

A copy of our diet book, "What to Eat and How to Eat," will be sent free on request to any one interested. Glassware may be treated in the same way, especially lamp chimneys.

A Word to Mothers.

It is a curious fact that few mothers, aware that their children had adenoids, are willing to have anything done to remove the trouble. The unfortunate part of their prejudice is that if the growth is not removed before the little ones are many years older the trouble becomes serious, and may lead to dangerous weakness, an operation ultimate-

Adenoids are a foreign growth exist-ing at the back of the throat or in the beginning of the nose passages. A child having them is unable to breathe correctly through the nose and is obliged to open the mouth to obtain sufficient air to fill the lungs. This in itself is weakening, for the lungs are never properly exercised save by air through the nostrils. The latter temper and strain it, making it more fit to enter the in-

ner organs, The operation for adenoids upon a little child is an extremely simple one, from which the patient recovers in a few days, and in several weeks begins to be stronger than ever. If the child attains many years without the removal of the growth, it is not uncommon for the latter so to affect the threat as to cause glandular weakness, when the glands there must be taken out,

There is rarely difficulty in knowing when adenoids are present, for there is marked tendency to breathing through the mouth, and the little one is very and it will be almost as rich as if made susceptible to cold, it locating itself most frequently in the head. A child so afflieted is never robust. If a mother thinks that her little one
